REMARKS

5           The Examiner had issued a restriction requirement in the paper dated February 1, 2008.  
The claims pending in this application are claims 1-26; including method claims 1-22 and  
intermediate compound claims 23-26. Unfortunately, the Applicant cannot respond on the merits,  
as the claims referred to in the restriction requirement are Claims 1-15, wherein claims 1-12 are to  
compounds and Claims 13-15 are to the use of those compounds for treatment of neuronal  
10       diseases. It appears that there has been an error in the drafting of the restriction requirement.  
Applicant's attorney spoke with the Examiner on May 28, 2008, and the conclusion was that  
Applicant would respond to the paper without making any election, and that the Examiner would  
issue another official action.
